DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-7, drawn to a gene which codes for an acetolactate synthase activity that is resistant to a pyrimidinyl carboxy herbicide, a recombinant vector that has said gene, a transformant that has the recombinant vector and methods of using a transgenic plant.

Group II, claim(s) 2, drawn to an acetolactate synthase protein.

Group IV, claim(s) 8, drawn to a method of cultivating a plant having a modified acetolactate synthase gene.

Group V, claim(s) 9, drawn to a method of selecting a transformant cell having a gene coding for acetolactate synthase having a serine at position 627 relative to a wild-type rice acetolactate synthase replaced by isoleucine.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of claim 1 was known in the prior art, hence the claims do not correspond to a single general inventive concept because they lack the same special technical features.

3. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1638

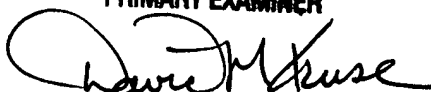

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
